

# MHM SINGLE PRINT

The MHM Single print is the best solution when it comes to **small quantities with high quality**. The Single Print is not only at home in the textile sector, but also plays its advantages in all graphic applications such as for single color graphic printing jobs or special coating on sheets or similar materials. Installed either on the wall or also available on wheels for more flexibility. The MHM **proofed print head system** allows to print an **super accurate** surface also on transfer sheets.

Tool-free front/rear stroke length adjustment	•	
Independent squeegee/floodbar angle adjustment	•	
Squeegee pressure regulator on every station	•	

Specifications	Single Print	Single Print double
Number of pallets	1	2
Max. print area (cm / inch)	50 x 70 cm / 19.7 x 27.6" or 70 x 100 cm / 27.6" x 39.4" special size on request	
Height of machine (cm / inch)	175 cm / 68.9"	
Weight of machine	275 kg	310 kg
Air consumption	20 l / min.	
Air pressure (minimum)	6 bar	
Electrical supply	230 V, 50 / 60 Hz	
Electrical consumption	0.5 kW (2.0 KW for Vacuum version)	
Max. frame size (cm / inch)	75 x 115 cm / 29.5 x 45.3" or 91 x 144 cm / 35.8 x 56.7"	

All dimensions in inches are rounded. The external design and product specifications may change without prior notice due to improvements to the product performance.

## WHY MHM?

**Innovation:** Recognised worldwide as the industry pioneer, our team continually monitors the demands and needs of our customers, embracing the very latest developments in technology to make our equipment user-friendly and provide you with the highest possible levels of performance.

**Quality:** MHM equipment is produced from only the highest quality materials and components using state of the art production equipment. This allows us to ensure that the strictest quality control procedures are maintained, ensuring our equipment will provide you with years of trouble-free production.

**Reliability:** The MHM name is trusted by screenprinting professionals all over the world and is synonymous with outstanding reliability. Even today, we never lose sight of this key factor which is paramount to both yours and our future business success.

**Made in Austria:** All MHM equipment is proudly manufactured in Austria and our passionate, dynamic and forward thinking young team is totally committed to delivering only the very best equipment to compliment your business.

**Synergies:** MHM is a member of the LFFICIENCY holding. The holding is a group of technology-oriented companies that complement each other sensibly through their portfolio alignment and thus create synergies in design, production, sales and shipment.
