FLOOD BARS THAT GO THE DISTANCE

DURABILITY YOU CAN COUNT ON – PERFORMANCE YOU CAN TRUST

Flood bars play a crucial role in every MHM press, helping you achieve smooth, consistent prints with every pass. That’s why ours are made from high-quality stainless steel—for unbeatable strength, longer life, and total peace of mind.

Unlike aluminum bars, which can be fragile and prone to damage during cleaning or handling, our stainless steel flood bars are built to withstand the rigors of real-world production. No more worrying about edge damage, warped bars, or costly reprints. Just reliable tools that work as hard as you do.

Need something custom? No problem! We offer a wide range of standard sizes and can quickly deliver special sizes tailored to your setup.

SQUEEGEES THAT KEEP YOU FLOWING

SMART DESIGN. SMOOTH RESULTS. BUILT FOR THE PRESS ROOM.

EFFORTLESS BLADE CHANGES

Our system is designed with efficiency in mind. Quick and easy blade changes mean less downtime and more productivity, so you can focus on what matters most—delivering results.

FIRM HOLD. PERFECT PRINTS.

Enjoy consistent, high-quality output every time. The advanced rubber clamping mechanism ensures your materials stay firmly in place, eliminating slippage and distortion for smooth, professional-grade printing.

EFFORTLESS CLEANING. UNMATCHED PERFORMANCE.

Maintenance shouldn't slow you down. Our intuitive design allows for fast and easy cleaning, helping you keep your equipment in top condition with minimal effort.

BUILT TO ENDURE. DESIGNED TO DELIVER.

Crafted from high-quality materials, this tool is built to stand the test of time. Its durability ensures long-lasting performance and consistent results, job after job.

Need something more specific? No problem—custom-sized squeegees are available on request, so you always get the perfect fit for your press and printing style.

Squeegees may look simple, but they play a critical role in delivering flawless prints—and at MHM, we take them seriously. Our squeegees are designed with a unique, bolt-free front profile that not only enhances performance but also makes life easier for every printer out there.
